Build a Purposeful Culture of Trust

Sicora Consulting understands that cultural alignment and change requires honest, open exploration, and assessment. We utilize a proprietary Purposeful Culture of Trust model to guide discussions to lead your organization to success.

The power of this 8 Style model is when leaders gather together to discuss and share their thoughts on the current state of the organization. This powerful perception exercise brings light to the personality of your organization.

Where do each of your leaders and team members view your culture on each of these styles, are they in alignment? Let us help guide your team to find alignment throughout your organization.

Where does your organization need on each dimension to be in order to be most effective? These dimensions make up the personality style of your culture. Contact Leadership at the Helm today to find out how to start building a **Purposeful Culture of Trust** in your organization.

This balanced model aligns to Jungian Technology. It ties in nicely with other offerings with Leadership at the Helm, including the 8 Factors of Engagement and the Discover the Leader Within program.
