

8 FACTORS OF ENGAGEMENT PROGRAM

Typical annual engagement surveys are designed to give you a benchmark of employee engagement, but knowing you need to take action and knowing what action to take can be two different things.

The *8 Factors of Engagement's* primary focus is on leading indicators and a pulse survey cadence. Checking in with employees each quarter in 3-minute surveys rather than once a year enables organizational agility at a time when it is arguably more critical than ever.

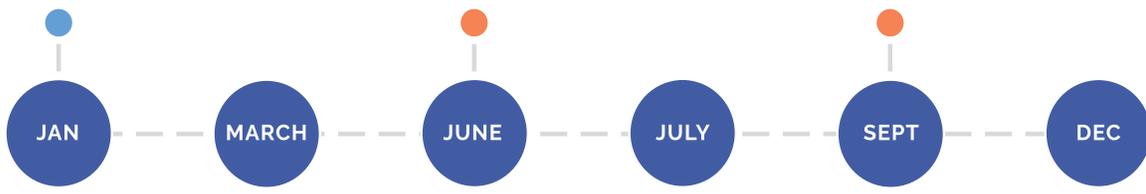

Organizations are facing more rapid and disruptive change, and they need to be innovative with how they listen to and act on the voice of the employee. The 8 Factors of Engagement model enables organization to immediately execute on strategy, leadership development, and culture-building.

For the first time ever, employees will be able to start their journey with their own individual profile allowing them to take action and grab the helm of their engagement.
