# PROGRAM ELEMENTS

## LEADERSHIP | Discover the Leader Within

Everyone is a leader on the team. The *Discover the Leader Within* program uses a personalized profile that includes the *4 Colors of Insights* to help the members of your team better understand themselves and their inner leader. Individuals can better understand others and build deeper levels of trust when they have a better understanding of themselves and each other, creating lasting relationships and sustainable results.

## CULTURE | Purposeful Culture of Trust

The individuals who make up your teams, and therefore the teams themselves, make up your organization's culture. Using the *8 Styles of Culture*, we'll help your teams find alignment around a shared purpose to help create a culture of accountability.

## TEAM | 8 Aspects of Team

Now more than ever, teamwork is critical to the success of your organization. We'll begin the *Navigating Team Effectiveness* program by looking at the effectiveness of your team, using our *8 Aspects of Team* model. We'll work with you to build a team framework that's balanced in the eight key aspects of a successful team: shared purpose, agility, collaboration, inclusion, trust, alignment, process, and continuous improvement. Focusing on your team can improve engagement, maximize effectiveness and productivity, and promote a more inclusive workplace environment.

## ENGAGEMENT | 8 Factors of Engagement

When we look at team effectiveness, we must recognize that all teams are made up of individuals, each contributing their own level of engagement to the team dynamic. We'll take an engagement baseline as you move toward a dynamic, real-time, employee-driven process using the leading indicator of performance: the *8 Factors of Engagement* program.
